

Custom Inlaid Logos

- Great Looks, Maximum Performance

Take your entrance to the next level and make a great first impression with our Facility Armor Inlaid logo matting program. Don't sacrifice function for style or visa versa. With Facility Armor, you get both. Our production method ensures that your logo will look great for years to come. Unlike printed logos that stain and wear off over time, our Facility Armor program utilizes solution dyed polypropylene which is hand inlaid into the base mat color of your choice and then reinforced with a vinyl patch for stability. Made to withstand the rigors of even the highest traffic entranceways, you can be confident that your Facility Armor inlaid logo mat is going to protect your floors while providing a great first impression.

- Unequaled style and functionality in one mat.
- Unlike printed logos that stain and wear off over time, our program utilizes virtually stain-proof solution dyed polypropylene which is hand inlaid into the base mat color of your choice and then reinforced with a vinyl patch for stability.
- Made to withstand the rigors of even the highest traffic entranceways, you can be confident that your inlaid logo mat is going to protect your floors while providing a great first impression for years to come.
- Easy to clean and maintain.
- Virtually unlimited sizes and shapes available.
